

Thank You for purchasing a Streeter Super Stands Tire Rack Tire Rack Assembly Instructions

1

Install tire rack rods to one end plate using supplied bolts.

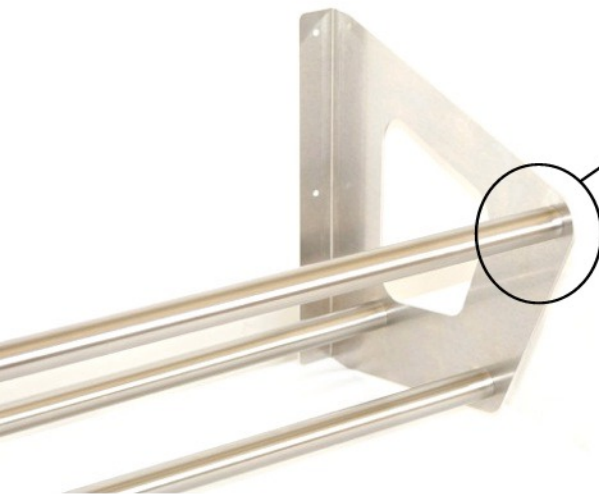

2

If needed, slide center support into position. We recommend using the support on 96" and longer racks (supplied with 96" and longer racks only).

3

Install remaining end plate w/ supplied bolts.

4

Rack should be fastened directly to a stud or similar sturdy support.

Overall length dimension of the tire rack is determined by the end plate mounting holes, not the overall length of the rack.
